

HANS beauty is timeless, HANS quality is stainless...

Welcome to HANS sinks !

We offer you the most useful selections of stainless steel sinks designed and manufactured for style, function and today's every life style. HANS sinks fit naturally into any kitchen environment, enhancing the counter tops, cabinetry and overall design.

HANS is the best selling, most preferred sink brand in Korea - "HANSSEM", "EFFEX", "TOTAL", "RINNAI", etc... Also, our export volume is growing stably year to year. It does not matter which sink you choose from our collection, it will lighten your daily workload, meet the size requirement of your sink base and fit your budget.

STAINLESS STEEL is tough, hygienic, stain resistant and odor free. No other kitchen sink material comes close to matching it.

The selection of only world's highest quality stainless steel ensures that your HANS sink will provide a shiny, easy to keep clean, finish for year to come. You are protected against rust and corrosion year after year, for as long as you own your HANS.

STATE OF THE ART technology and old world craftsmanship guarantees that you will get the highest quality possible in all HANS products.

OUR PRESTIGIOUS TEAM of architects and designers continually pursue excellence in design to meet your changing life style.

We are dedicated to serving you by continually being on the leading edge of design and quality improvement.

HANS

Undermount Sink

JUMBO SINK

"JUMBO" bowl is a "trend" these days, especially in China, Japan, Malaysia, Singapore and Korea. The housewives in these countries prefer bigger sink bowls for their wok, frying pans, hollow-ware and big bowls and dishes. If you like cooking at home, you've got the solution here.

Jumbo range gives you true designers' choice in various sink types of inset-mounting, under-mounting sinks.

Jumbo bowl is big (780x390mm) and deep (210mm) enough, designed to accommodate the most awkward cookingware and tableware.

Exclusively tailored accessories, such as sliding drainer, colander tray and sliding bowl make the jumbo bowl a total work centre.

HANS

Exclusively tailored accessories

Large type drainage set with stainless steel basket which has better effect of collecting garbage and easy cleaning.

Stainless steel colander tray is designed to fit into the bowl. It is not only a drainer for wet bowls and cups, but also a convenient tray for processing vegetables, fruit and fish.

Sliding drainer for extra space putting on wet dishes / bowls, vegetables / fishes, etc...

You may need small sink bowl for simple job or double sink bowl for cleaning and rinsing . Extra sliding bowl is provided for your convenience, made of stainless steel.

Toilon cover and aluminium pad for reducing noise and preventing condensation.

Top: 0.8mm thick Bowl: 0.7mm thick

Quality sinks for quality kitchens

**Inset
Mounting**

The double stepped deep inner rim guard against splashed water spreading around the sink bowl. The outer rim is very low which makes for easy cleaning around the sink area.

**Under
Mounting**

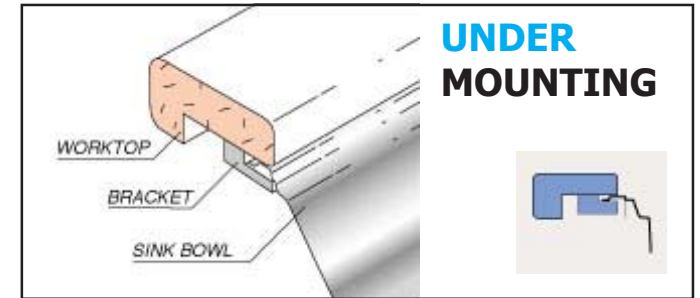

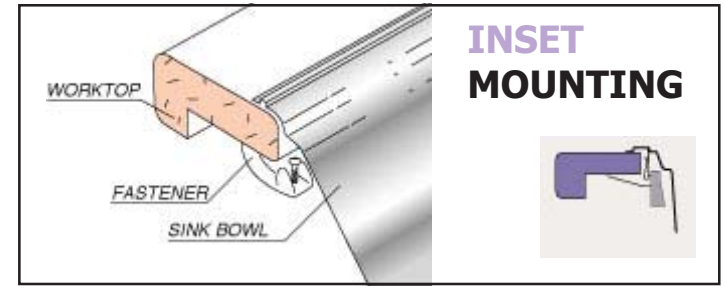

The HS-Series sink is very adaptable, by design. It can be installed on the counter or as an undermounted sink. Its flexibility allows for installation into any counter top design and onto any material. When installed as an undermounted sink, cleaning is very easy because the sink edge is below the counter top.

Extra space on the same level of the sink bowl to be used for small items around sink - detergent bottle, soap, scrubber, etc

Enough space is provided at the centre of sink edge for mixer tap installation.

Plastic colander tray especially designed for 510mm bowl provides you extra space and function for your cooking and cleaning works.

HANS

Useful Accessories

AC 200 Drainer Tray

In addition to capturing water and returning it to the bowl, our drainer tray is a convenient place for the drying of dishes, pots and cutlery.

JDB 30 Drain Board
